DETAILED ACTION

REASONS FOR ALLOWANCE

1. Claims 1-47 are allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 1-9, 11, 13, 14 & 15 is the inclusion of the limitations of a liquid container including a flexible member deformable in accordance with an amount or remaining liquid contained in the liquid container, a vibration activating and detecting unit provided on a first surface, a rigid member provided on a second surface, *wherein amount of remaining liquid is detected based on a vibration characteristic of vibration activating and detecting unit depending on distance and wherein distance between vibration activating and detecting unit and rigid member is not predetermine*. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 10 & 12 is the inclusion of the limitations of liquid container including bag-like flexible member, a vibration activating unit provided on a first surface, a vibration detecting unit provided on a second surface, *wherein first and second surfaces are opposite each other* and amount of remaining liquid is detected based on a vibration characteristic of vibration detecting unit. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 15-23, 25, 27, 29 & 30 is the inclusion of the limitations of liquid container including a flexible member, vibration activating and detecting

unit provided on a first surface, rigid member provided on a second surface, *wherein first and second surfaces are opposite each other*, and amount of remaining liquid is detected based on a vibration characteristic of vibration activating and detecting unit. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 24, 26 & 28 is the inclusion of the limitations of liquid container including bag-like flexible member, vibration activating unit on a first surface, vibration detecting unit on a second surface, *wherein first and second surfaces are opposite each other* and amount of remaining liquid is detected based on a vibration characteristic of vibration detecting unit. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 31-39, 54, 43, 45 & 46 is the inclusion of the limitations of liquid container including hard outer case and ink bag, flexible member, vibration activating and detecting unit on a first surface of flexible member, rigid member on a second surface of flexible member, *wherein first and second surfaces are opposite each other* and amount of remaining liquid is detected based on a vibration characteristic of vibration activating and detecting unit. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 40, 42 & 44 is the inclusion of the limitations of liquid container including hard outer case and ink bag, flexible member, vibration

activating unit on a first surface of flexible member, vibration detecting unit on a second surface of flexible member, *wherein first and second surfaces are opposite each other* and amount of remaining liquid is detected based on a vibration characteristic of vibration detecting unit. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
